## PRIVATE PILOT COURSE

Hub City Aviation provides Private Pilot Training in accordance to Federal Aviation Administration regulations. Federal regulations mandate the following eligibility requirements.

### Eligibility Requirements:

- 17 years of age
- Must Read, Write, and Speak English
- Obtain FAA medical certificate before first solo
- Complete 40 hours Minimum Flight Time, Including 10 hours Solo
- Pass a FAA Private Pilot Knowledge Test
- Pass the FAA Private Pilot Practical Flight Test

### Getting Started:

Getting started is very easy. All you have to do is call today to schedule an appointment for tomorrow, or any time good for you.

### The Course:

Hub City Aviation's Private Pilot Course is broken into three phases. The first phase focuses on preparing the student to take the controls as the sole occupant in the aircraft. During phase two the student will learn how to pilot the aircraft to other places than just the home airport. This is the cross-country flight-training phase that will teach you how to pilot an aircraft across the county to your favorite destination. The last phase will prepare you for the FAA Practical Test known as the "Practical." Once completed you will be issued your private pilots license, which will allow you to fly yourself or passengers.

### Estimated\* Cost:

Cost Table	Piper Cherokee 140
20 hours flight instruction	\$600.00
5 hours classroom instruction	\$125.00
40 hours Aircraft Rental	\$2680.00**
Training Materials & Supplies	\$154.00
Communications Headset	FREE!***
Minimum Course Fee	<b>\$3559.00</b>

\*Cost estimates are based on the FAA (Part 61) minimum training requirements. The number of hours any individual may require depends on that person's abilities, initiative, and training frequency. National average 60hrs. Hub City Average 50hrs+35hrs instruction.

\*\*Prices on aircraft are based on discount rate (customers with a balance of \$500 dollars or more on account will receive a 10% discount in aircraft price). Hub City Aviation offers no guarantee of student performance or "turn-key" packages. 5% fuel surcharge in effect not included. \*\*\* Free communications headset (AC-200) is provided when total minimum course fee is paid in advance. Cost (99.99+tax) deducted from any course refunds. Checkride, medical, testing fees not included.
